Products for Telecommunications

### PRESSURE INLETS

#### WAVEGUIDE INLETS

Model No	W/G (WR)
C1622-1	284
C1622-2	229
C1622-3	187
C1622-4	159
C1622-5	137
C1622-6	112
C1622-7	90
C1622-8	75
C1622-9	62
C1622-10	51
C1622-11	42
C1622-12	34

ETG-Canteq supplies a standard product line of pressure air inlets built-in the rectangular waveguide with standard flanges and standard 1/8 NPT air input as shown in the picture. Other options such as Flange Spacer Inlets are available (see below).

#### How to order the right part:

Specify the model number according to the waveguide size. Select the flange from the Flange Code (see section 01-1 page 1)

ETG-Canteq Model No C1622-5-2-3 is:

Model No	Flange
C1622-5	2-3

a WR137 waveguide inlet,

with a CPR-F Flange at one end and a CMR flange at the other end.

Consult our Sales Department to help you with your particular requirements or other configurations.

### WAVEGUIDE AND FLEX HANGERS

#### WAVEGUIDE HANGERS

Model No	W/G (WR)
C1810-1	284
C1810-2	229
C1810-3	187
C1810-4	159
C1810-5	137
C1810-6	112
C1810-7	90
C1810-8	75
C1810-9	62
C1810-10	51
C1810-11	42
C1810-12	34
C1810-13	28

ETG-Canteq can help you with most of your waveguide hardware needs, including waveguide Hangers, Ceiling Brackets, Pressure Inlets, Waveguide Spacers (Shims), Flange Gaskets and Screw/nuts kits.

ETG-Canteq supplies waveguide sliding hangers ranging from WR430 to WR28, they are light-weight and very easy to assemble with very little hardware.
